Different sizes of bags using the same plate combine for print and hot stamp lot charges.

Please be advised that case breaking is not available & the minimum order quantity is 2 cases per item for any post printed orders.

We will acknowledge every purchase order received in writing prior to production. Please review your acknowledgement carefully and contact us immediately if you see any discrepancies. (If changes need to be made, please refer to the "Cancellations and Changes" section below.

We require vector artwork for all orders. Acceptable file extensions: .ai, .eps, and .pdf. Content inside the file must be vector graphics, all fonts need to be converted to outlines, and any strokes must be expanded.

Other file types or images may be acceptable if the file size is large enough, but will be subject to pre-approval by the art department.

We recommend that you send us a copy of your artwork prior to submitting an order so that we can determine if we can print the artwork on the product that you would like.

Artwork sent via e-mail must reference the purchase order number in the subject line. Please provide a PDF copy with your order so that we may verify the integrity of your electronic submission. On orders with multiple colors, please indicate color breaks on your PDF copy.

We will not store digital artwork for longer than a 1 year period.

We will not add websites, addresses, or make major changes. If any changes besides resizing is wanted, you must send a revised art file to the art department.

Artwork recreation, or artwork that takes longer than 15 minutes to clean up, will incur art charges of \$55 per quarter hour & will be added to the purchase order.

Trademarks, Copyright, & Use of Logos - All artwork & logos with or without trademarks, copyrights, and registration marks are shown in this catalog to demonstrate our post-printing capabilities and are not for sale. Any imprints in this catalog are for illustrative purposes only.

By placing an order with us, you represent and warrant that you have all the necessary permissions, rights and authority to place the order and you authorize us to print the artwork/logo received on your behalf. You grant us the right to copy, modify, distribute, and create vectorized content you send for the purpose of fulfilling your order and/or marketing products or services to you. Moreover, you represent and warrant that you have sufficient rights to permit us to copy, distribute, use, modify, the artwork for the purpose of fulfilling your order and/or marketing products or services to you.

Proofs - PDF versions of proofs will be sent to you via e-mail. Approved proofs must be signed and sent back to us via email for the lead time to begin. Placement of the artwork is approximate.

We will proof up to 2 proofs per order; for more than 2

proofs there will be a charge of \$58.33 per proof.

Artwork - Ink or foil that is close to (or similar to) the same color of the bag being used, may not be visible.

Large areas of heavy coverage can appear patchy and uneven due to the crease from the gusset flap.

Text must be a minimum font size of 9 points to print legibly. (Some fonts may need to be bigger, depending on the areas inside letters, or if letters are too thin. Smaller sizes may have fill in, not print, or be illegible.)

Some artwork may need a white space placed in-between different pieces, to help with readability of the artwork.

Reversed out areas, small details, and tiny type may experience fill in.

Thin lines & text may have to be adjusted and made thicker for visibility on the actual plate itself.

Registration marks and Trademarks may need to be adjusted to be visible, or to not have fill in.

Gradients and/or areas at less than 100% opacity (screens) will print as dots, not as a lighter color. The DPI (dots per inch) frequency will depend on the artwork. Any small details will not be visible as dots, and text may not be legible.

Digital artwork with varying levels of opacity.

Image as it would appear once printed with the screens.

Placement - Unless otherwise stated, the logo will be placed center best on the product and sized to fit in the Max Imprint Area.

Our production team will center the art as much as possible, but logos may be shifted slightly to help alleviate issues with the crease, fold, handle area, or sizing of the product.

Two-sided printing may be affected by the crease and fold of the bags, so the positioning may not be placed exactly center best on one or both sides.

As much as 1/8th of an inch to 3/8th of an inch of shift in the artwork position is possible due to manual feeding. (Continued on next page...)

Movement may occur on Multi-color orders. Registration tolerance is 1/8th for Hot Stamp & 3/8th for Flexo-Ink Printing.

Minimum placement on most products for Hot Stamp is 1" from the sides or bottom edge, and 0.5" below the handle area.

Some logos may look off-center due to Registration Mark and Trademarks. We will need to know before printing if placement needs to be based off the Logo itself and not the full image.

POST-PRINTING PROCESSES

Flexo-Ink Print - White ink, metallic inks, and light-colored inks always appear dull in color and may not be very visible or legible on any kraft or tinted paper shoppers.

On kraft and tinted color bags, most ink colors will appear darker and may not look exactly like the PMS color requested.

211 White Ink on Kraft Paper Shopper

200 Metallic Gold (PMS 871) Ink on Tinted Black Paper Shopper

277 Sunflower (PMS 121 U) Ink on Kraft Paper Shopper

Multi-color artwork may be adjusted to add space in-between colors to avoid inks mixing during printing.

Inks are always laid lightest color first to darkest color last.

4 colors of Flexo-Ink on White Paper Shopper

4 colors of Flexo-Ink on Kraft Paper Shopper

Hot Stamp - Foil can have an uneven edge due to the product material itself.

Due to the different textures of bag materials, some foils may not adhere completely and may easily flake off if intentionally scratched.

Thin lines or points may break off from the plate or even damage the product.

Foil colors similar to, or the same color as the product, may not be visible or legible.

113 Matte Navy foil on 8494MNV

119 Matte Black foil on 0810BLT-M

Matte foils have a higher chance for fill-in due to the higher temperature needed for adherence. Metallic foils are recommended for artwork that has smaller details, thin lines, or small text.

2-sided orders have more potential to crease the foil during the printing process. A smaller plate may need to be made to avoid the crease depending on the artwork.
