SatinWrap®

Introduction

Wrapping up 2023.

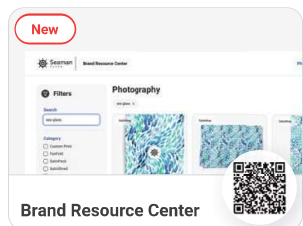

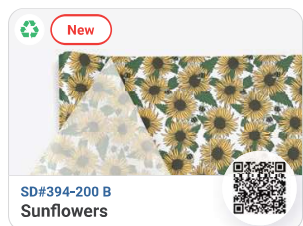

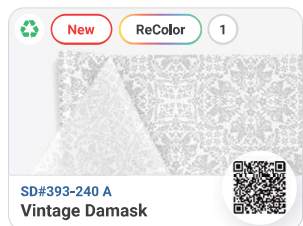

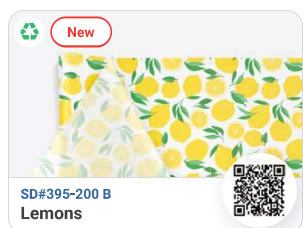

Over the past year, we introduced three new benefits for our SatinWrap® customers: SatinWrap® Online, ReColor, and now our brand new Brand Resource Center. These features are fresh and easy ways to elevate your brand through custom packaging.

Thanks to SatinWrap® Online, all of our in-stock tissue paper is available to view at any time. There, you'll find helpful product information, such as recycling capabilities, case pack, and more. Explore via your browser, or simply scan the QR code from each item in our catalog to view on your mobile device.

A select number of our stock designs can be customized to your brand through our SatinWrap® ReColor service. Customers can choose from a specific catalog of prints and recolor them to their exact brand colors. With low minimums and the benefit of no plate charges, this is an economical and quick way to adopt custom packaging for your brand.

With our new online Brand Resource Center you (or your marketing team) can access and download high-resolution downloads of product photos and other marketing assets. That way, it's easier than ever to incorporate your brand's packaging into your marketing efforts. Request access to the Brand Resource Center today.
